
MOHAMMED RAHMAN

Toronto, ON | mir178@protonmail.com | linkedin.com/in/mohammed-imtiazur-rahman | github.com/mir17881

Summary

I turn ambiguous, high-stakes problems into shipped product, fast. I break large, undefined work into the smallest things worth shipping, then test and iterate in market. Principal PM, 15 years in fintech and heavily-regulated domains. 0→1 launches, two-sided marketplaces, and an experimentation-first approach. Operator background — ran a P&L and an 80-person org before product.

I work AI-native: I use **Claude Code daily in my day-to-day product work** — prototyping, drafting PRDs and roadmaps, and creating and pushing Jira tickets and pull requests — not only in side projects (where I've shipped a Claude Code-built app to Google Play and published an AI/RAG dataset on Hugging Face).

I drive growth innovation. Winner of Intuit's 2023 Scott Cook Innovation Award.

Skills

- 0→1 product launch
 - Product strategy & roadmap
 - Experimentation & A/B testing
 - OKRs / KPIs & data-driven PM
 - Two-sided marketplaces / platforms
 - Cross-functional leadership (10+ teams)
 - Fintech & regulated domains
 - Scaling products & teams
 - Stakeholder alignment
 - P&L & operations
 - Systems thinking
 - AI-accelerated product work
-

Experience

Principal Product Manager

08/2022 to 08/2026

Intuit — TurboTax (fintech)

Toronto, Canada

- Launched **TurboTax Business** (0→1, corporate tax filing) — no playbook; decomposed into shippable increments. **Beat the quarterly target ~2x**, on time.
- **Lead PM for the Uber and Etsy income-import integrations** — partnered directly with Uber's and Etsy's developer teams on the API connection that lets gig drivers and marketplace sellers import their earnings directly into TurboTax at filing time.
- Alongside that 0→1 launch, shipped **Expert 365** — a product that **automates small-business document handling for bookkeeping**.
- Led cross-functional **mission teams against company OKRs** — owning **unit, revenue, and NPS KPIs** — and presented in **weekly senior-leadership reviews** to drive measurable KPI improvement.
- **Unified TurboTax Live Full Service** — reduced tech duplication **60%** and accelerated process from **21 days to hours**, achieving a record recommendation score of **84**.
- **Scaled a 50-customer test to the baseline for ~500K customers**, earning the **Scott Cook Innovation Award** (Intuit's top company-wide honor).
- **Led experimentation for TurboTax Canada** — monthly experiments across the full ladder (prototype → smoke test → A/B → pilot), increasing experiments **2.5x**.

Senior Product Manager

08/2020 to 08/2022

Intuit

Toronto, Canada

- Established Full Service tax prep — **+50% SLA** and **3x recommendation score YoY**, setting the company standard at launch.
- Developed the two-sided **consumer ↔ expert** platform, coordinating efforts across **10+ scrum teams**.
- Delivered rapid iterations in a heavily regulated industry, ensuring compliance while addressing market needs.

Product Manager Intuit	04/2019 to 08/2020 Toronto, Canada
Transitioned ~300 tax experts onto Intuit's central platform, improving operational consistency by replacing Salesforce and cutting customer-servicing time 50%.	
Operations Manager, TurboTax Live Intuit	05/2017 to 04/2019 Toronto, Canada
- Managed 80 experts via 5 supervisors, creating an end-to-end customer journey across product, design, and operations. - Achieved 95–97% service levels and record profitability (108% of target YoY) while launching 2 new in-season services.	
Operations Manager, TurboTax Advice & Review Intuit	09/2011 to 04/2017 Toronto, Canada
- Built a 60-person team in 90 days for a new Free Tax Advice initiative, overseeing training, onboarding, and coaching. - Achieved 90%+ retention year-over-year (customer satisfaction 78).	
Branch Manager H&R Block	09/2009 to 09/2011 Toronto, Canada
Led 2 Toronto branches and an 8-person team, achieving sales targets and earning the Best Performer's Award.	

Education

M.A.: Economics University of Ottawa	01/2009 Ottawa, ON
B.A.: Economics University of Dhaka	01/2005 Dhaka, BD

Selected Side Projects

- Android app built with Claude Code** — live on [Google Play](#): *Ganjifa* — *Game of Emperors*, a heritage card game reviving the 8-suit Mughal deck (bilingual Bengali/English, offline-first), designed and shipped end-to-end with AI-assisted development. *React, TypeScript, Capacitor, Supabase*.
- South Asian art RAG dataset on Hugging Face** ([mir178/nk-mughal-rajput-art](#)) — a retrieval corpus of thousands of Mughal & Rajput museum artworks with curated metadata and vector embeddings, enabling LLMs to run semantic search, retrieval-augmented generation (RAG), and grounded Q&A over the collection. Open for non-commercial use (CC BY-NC 4.0). *Supabase/pgvector, OpenAI embeddings*.

Tools And Stack

Amplitude, Google Analytics, Tableau, SQL, Jira, Smartsheet, Coda, Figma, Claude AI, Claude Code, Gemini Canvas, OpenCode, Ollama, LM Studio, DeepSeek

Awards, Languages & Activities

Scott Cook Innovation Award, Intuit, 2023 — top company-wide innovation award, presented personally by founder Scott Cook and the CEO, for leading a project that became the company baseline impacting ~500K customers.
